

# MULTI-FUNCTION CAR AIR PURIFIER FH121

Humidifier + Purifier

Remove  
Harmful Gas

Low-noise  
Design

H12 Grade High  
Quality Filter

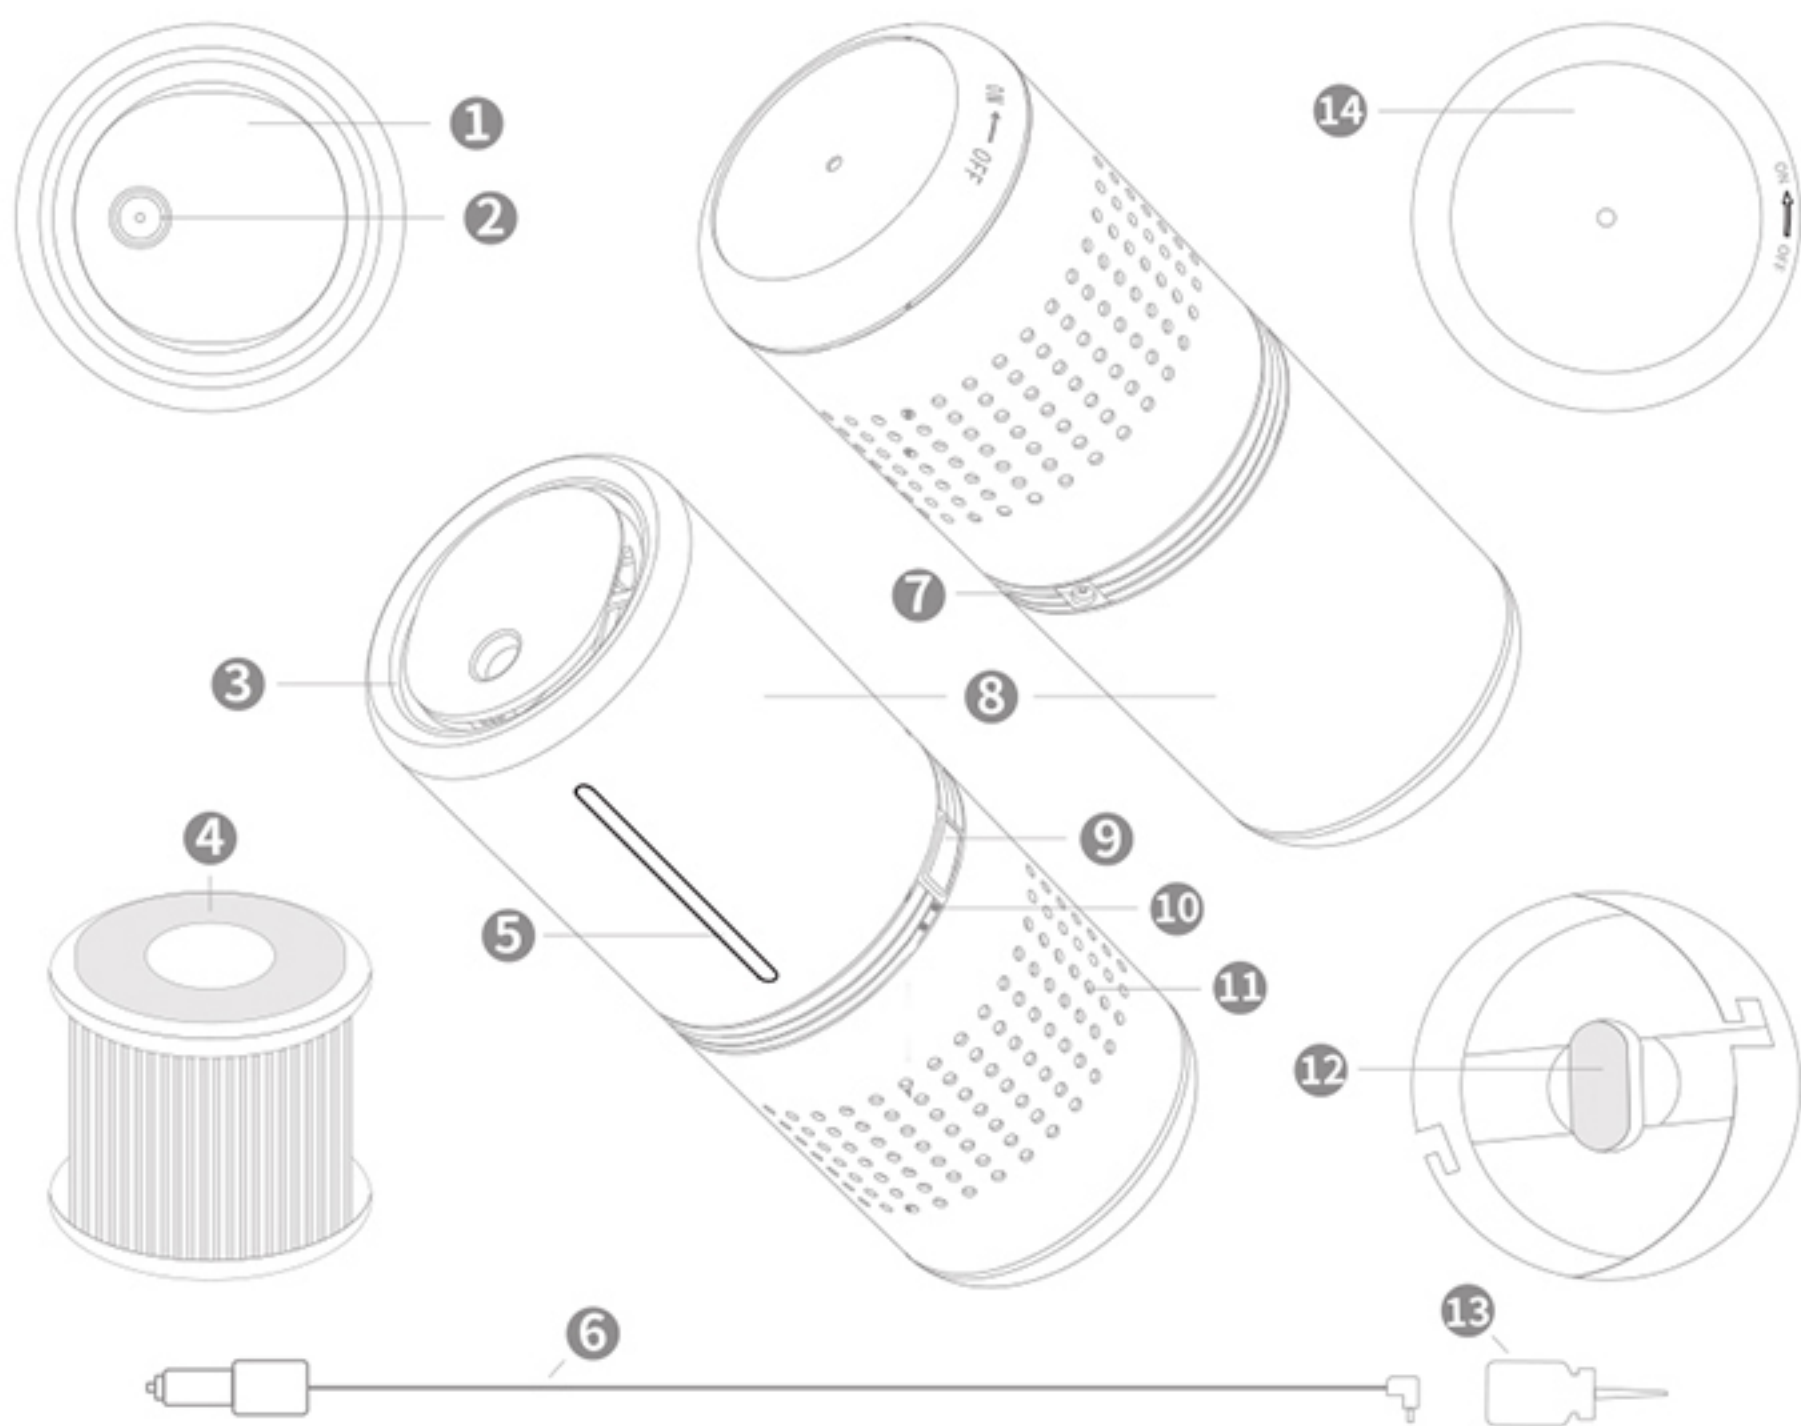

# SPECIFICATION

PRODUCT	INPUT	WATER VOLUME
Humidifier&Purifier	12V/1A	80ml

FILTER	FRAGRANCE	SPACE
H12 HEPA	Aroma Foam	<10m <sup>3</sup>

DIMENSIONS	MATERIALS	WEIGHT
Φ70 x 168mm	Aluminium Alloy & ABS	286g

## THREE MODES FOR OPERATION MEET DIFFERENT REQUIREMENTS

**Press once:** Purification Mode.

**Press twice:** Purification & Humidification Mode.

**Press the third time:** Humidification Mode.

**Press the fourth time:** Turn Off.

# H12 HEPA FILTER

**Filter**

360° barrel-shape design to ensure enough air entered. H12 HEPA filter to clean the dust, molecule, smoking, etc.

The longer the car is exposed,  
the more the formaldehyde is volatilized.

The following data is for reference only

# ULTRASONIC HIGH-FREQUENCY HUMIDIFICATION TECHNOLOGY

The liquid inside FS121 is atomized into micro water molecules by high-frequency ultrasonic wave. The micro molecules will spread everywhere in the mode of simultaneous humidification and purification. It can last 5 hours to make the environment comfortable and healthy.

DIY FRAGRANCE •

## DIY FRAGRANCE

We can add the favorite essential oil or perfume on the foam of the bottom cover.

The fragrance will be full of the car and release the pressure.

# DRY BURNING-RESISTANT PROTECTION

---

The intelligent sensor inside FH121 can stop the machine automatically when the water is used out to avoid the damage of the device.

# MORE WIND VOLUME LESS NOISE

Low-noise design, which is under 38dB in the mode of simultaneous humidification and purification.

FS121 supplies a healthy environment during driving.

<38<sub>dB</sub>

NOISE

230m<sup>3</sup>/h
